QUALITY POLICY
IN THE "NAUTA" SHIP REPAIR YARD S.A.

We’re aware that customer satisfaction is basic condition for continued success in the implementation of our products and services; we have made the following proceeding rules as the elements of the strategy:

- Meeting the quality policy needs and customer requirements beginning from the first contact with him until the delivery of the product or service while providing quality to meet its requirements;
- Meeting the quality requirements during the realization process of GQA, according to AQAP's 2110 standards;
- Continuous improvement of the quality of our services and products;
- Continuous improvement of processes and manufacturing technology and work organization;
- Use of qualified suppliers and subcontractors identified with the quality policy;
- Taking care of raising and maintaining the continuity of knowledge and skills through a systematic training;
- Constant awareness of all employees and contractors that only individual responsibility for quality of work and complete identification with the company guarantees the achievement of the objectives.

The Management provides the means and resources to implement projects related to the implementation and effective functioning the quality management system.

On behalf of the Board and all employees we accept responsibility for the quality policy of projects.
